### Roasted Flavoured Pulses/Grains

Why restrict to the traditional fare of peanuts or gram? Nexus is coming up with newer product variations in the pulses/grains segment like green peas, Moong dal and similar others. Snacking options have expanded a lot in recent years and it is the quality lock with traditional taste that has got us the benefit of customers asking for more. When there's more to munch on - that too with finest ingredients - we aren't restricting ourselves. Digging into old recipe books, we are now reinventing the snacking taste with more to offer.
